Attention:

Dear Ms. Wessner,

Just a short note to express our company's satisfaction with T-M Vacuum Furnaces. We have been using your furnaces over the last 20 years and have found that they are reliable and provide precision heat control as well as temperature uniformity.

The three furnaces that we have at our facility are running 24 hours per day, seven days a week. They support our product lines of aerospace components that Kinemotive has engineered, designed and manufactured since 1959.

Sincerely

KINEMOTIVE CORPORATION
