To whom it may concern:  
Subject – T-M Vacuum Furnaces

03/31/10

We here at CAD Enterprises have been using and enjoying the furnaces we purchased from T-M for over 10 years. We have found the units to be well built and fully in line with the expectations we had for the units when placing the orders.

We currently have four units (2 older models and 2 newer within the last 3 years) and have no issues with them whatsoever. The tech team at T-M was very helpful from the Purchasing through Implementation stages of the process of acquiring and set-up of the units and we could not be happier.

We here at CAD are looking forward to many more years of service from T-M and will definitely return to them when the time comes to add or expand our Heat Treating and Brazing capabilities.

Sincerely,

Arvin Loudermilk  
President  
CAD Enterprises Inc.
