**Subject:** Re: Recommendation

To whom it may concern,

The Kilovac Division of Tyco Electronics has six T-M Vacuum Products vacuum brazing furnaces in operation. These furnaces are used for a variety of critical manufacturing processes, many of them for eventual use in flight applications. T-M furnaces have been used continuously in our operation for more than thirty years. We have found them to be highly reliable and particularly in the case of the later models, very easy to program and use.

Regards,

Peter Kohlmeier
