Rennie Wessner
Vice President
T-M Vacuum Products, Inc
Cinnaminson, NJ USA

Dear Ms. Rennie Wessner

Hygood has totally purchased five(5)furnaces so far with two (2) designs.
Two (2) of them are under use and the rest are waiting for setup.

As the user, Hygood is impressed by your engineering capability and prompt supports. You are always available for any questions and problems.

Vacuumed furnace with the max working temperature at 2000°C is not an easy job. Your furnaces are reliable for its temperature uniformity, safety precautions, accurate performance monitoring and recording.

Thank you for your good job!

Best regards

Mike Xiao

Sales Director
